WAYS TO STOP CORONAVIRUS

For people to gather for any public place no dey allowed.

If no be for work, health matter and important reason, no need dey for movement kpakpa (incase Ikelebe control, need dey to present certification). Need dey to stay house and to meet few people (even if they be friends and parents).

If they get breathing infesion and fever (of 37,5°C) need no dey to go pronto soccorso or to go meet your doctor but we dey strongly reccomend make you stay for your house and make you limit to meet with people. You need to call your doctor or 800033033 or 112.

People wey dey under quarantine or wey result positive to the virus no dey allowed at all to comot for house.

WAYS TO MAINTAIN SANITARY HYGIENE

Always dey wash your hand.

Avoid to too near pesin wey you notice say get breathing infesion.

Avoid embrace and handshake.

When you meet pesin, keep distance of at least one meter.

Breathing hygiene (sneeze and/or cough for tissue paper so that you go fit avoid to do them for hand).

Avoid anyhow use of bottles and cups.

Nor touch your eyes, nose and mouth with your hands.

Cover mouth and nose when you wan sneeze or cough.

Clean your place with disinfectant wey base with alcool.
